DETAILED ACTION

1. Claims 1-2, 5-6, 8-9 and 12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-2, 5-6 and 8-9 are allowable because none of the prior art discloses an apparatus for characterizing a particle, wherein the apparatus comprises: an electrical charge sensor includes a plurality of electrodes spaced along a pathway, wherein the outermost electrodes are grounded, and the two electrodes adjacent to the outermost two electrodes are interconnected, and wherein a signal is derived from the difference between the central electrode and the two interconnected electrodes; an optical device adapted to determine a second characteristic of the particle, and in the combination as claimed.

Claim 12 is allowable because none of the prior art discloses an apparatus for measuring a charge on a particle, wherein the apparatus comprises a tube along which the particle is arranged to flow; a first and a second outer electrode; a third electrode adjacent to the first outer electrode, and a fourth electrode adjacent to the second outer electrode; a fifth electrode located between the third and fourth electrodes; a connection connecting the first and second outer electrodes to ground; a connection connecting the third and fourth electrodes to a measuring circuit, wherein the measuring circuit is adapted to subtract the signals on the third and fourth electrodes from the signal on the fifth electrode to derive a signal indicative of the charge on the particle, and in the combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
